But when, after the marriage ceremony, Grant Walker placed his arms around her and told her that she belonged to him, and that he had a right to kiss her, she drew back, and over her came the feeling, she said, that she did not love him as a wife should love her husband. She said that the revelation of her changed feelings, which resulted in her leaving her newly-wedded husband forever, came

to her at his home.

Mr. Wendenburg attempted vainly to recall to her mind some of the pas-sages in the ritual, some of the incidents which took place as the minister was joining them in holy wedlock, but she only shook her head and said that she could not recall anything that oc-curred during those few moments. She was unable to recall whether she placed her hand in Grant Walker's hand, or whether he placed his in hers. She recalled definitely that her husband attempted to kiss her when they were in his home, and that she knew then that she did not love him.

Mr. Wendenburg sought to find other reasons for her sudden change from love to revulsion for her husband, but she gave no other. It was only the attempted kiss, she said, that brought about the change.

In reply to Mr. Wendenburg she said nat her mother and brother, John Ratcliffe, came to see her in Pittsburgh before Walker visited her. John Rat-cliffe had testined that he and his mother went to Pittsburgh after Walk-er's visit. The girl was asked if she could reconcile the two statements. She said that she hardly knew how to answer the question, but that her mother and brother did come before

The Mayor said he would enforce the resignations of a number of members of the school board who voted against Mrs. Young yesterday and brought about her removal.

It was the first meeting between the two since the elevation of Smith to the head of the great railway corporation, in which he has served many years. Berlin, December 11.—Speaking today in favor of the bill in the Reichstag to abolish dueling, Deputy Erzberger, leader of the Centre party, made the startling charge that an institution exists in Berlin for the purpose of provoking duels by causing married women to be placed in compromising positions. The institution sends out "men of honor" for this purpose. Its existence is known both to the police and the public prosecutor, declared Herr Erzberger.
